DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-10** are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record fails to sufficiently describe or suggest an apparatus for classifying an occupant of a seat wherein the apparatus comprises a fluid-filled seat bladder disposed between a ground plane conductor film and at least one sensor element conductor film. Further, a controller classifies a seat occupant based upon the change in capacitance or electric field coupling between the ground plane conductor film and the at least one sensor element conductor film. These along with further limitations set forth by the claims appear to render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
